Continuity Experience I: For all months that the fellow is not on one of the 5 Inpatient Consult months, s/he spends 1 half-day a week attending hospice interdisciplinary team meetings, providing clinical support to the hospice team. Each patient on the service is presented and discussed every other week. Formal teaching for fellows occurs in this meeting by the faculty member who also serves as a medical director for the interdisciplinary team.

Continuity Experience II: Fellows maintain their own outpatient clinic practice under the supervision of the palliative care faculty, spending at least 1 half-day a week for 12 months. Fellows follow new patients longitudinally in the ambulatory setting as well as across settings if the patient is admitted to the hospital or goes to hospice.

Possible Electives

Interventional Pain Management Self Design
 Medical/Radiation Oncology
 Nephrology/Pulmonary
